SOFTWARE DEVELOPER
JAVA | REACT | AGILE TRAINED

- 2+ years of professional experience as a Software Developer, gaining advanced expertise in Angular, Vue.js, HTML, CSS, JavaScript
- An analytical student of Software Engineering Technology; Holds a Bachelor of Engineering degree in Electrical and Electronics Engineering
- Proven skills with OOP, database management and application of Agile methodologies
- Adept at designing and developing user interfaces and implementing API integrations, ensuring robust communication between front-end and back-end systems
- Strong problem solving and troubleshooting skills, with experience in debugging, testing and QA
- Multilingual in English and Turkish, enhancing communication in diverse environments

TECHNICAL SKILLS

Programming: Java, C#, JavaScript, SQL, TypeScript, HTML, CSS, Kotlin
Libraries & Frameworks: Node.js, React, Angular, Vue.js, Svelte, .Net, Express.js
Databases: MongoDB, Oracle Database, PL/SQL
Version Control: Git/GitHub, BitBucket, SourceTree
Tools: Figma, Jira, Shift, Visual Studio Code, Eclipse, Android Studio, Postman, MS Office

RELATED WORK EXPERIENCE

Software Developer | Etiya, Istanbul, Turkey   Mar. 2022 - Apr. 2024
- Led front-end development using HTML, CSS, Angular, Vue.js, and Svelte to enhance user interaction and performance for digital interaction management systems and chatbot interfaces, contributing to retail management and marketing platforms. These applications aimed to improve customer experience and loyalty.
- Applied OOP principles in JavaScript and TypeScript to create scalable and maintainable codebases
- Implemented Agile to streamline project workflows, ensuring timely and efficient project deliveries
- Developed and optimized web services, establishing API connections between frontend and backend systems
- Utilized version control (Git, BitBucket, SourceTree) to manage code and ensure smooth team collaboration.

EDUCATION

Software Engineering Technology Advanced Diploma   May 2024 - Present
Centennial College, Toronto, ON
Relevant Courses: Java Programming | C# Programming | Mobile App Development | Database Concepts (SQL) | Software Systems Design | Software Testing & Quality Assurance | Web Application Development

Bachelor of Engineering - Electrical & Electronics Engineering   Sept. 2015 - Aug. 2021
Cukurova University, Adana, Turkey
Relevant Courses: Computer Programming (C++) | Numerical Analysis (Python) | Programming (C#)

PROFESSIONAL DEVELOPMENT

Angular BootCamp | BlueMark Academy Certificate
Business Process Framework (eTOM) Foundation Level | TM Forum
Open API Foundation Level | TM Forum
Open Digital Frameworx Foundation Level | TM Forum

PROJECTS

Food Order Management System - *Meal Master*
- Enabled functionalities such as restaurant reservations, menu viewing, order placement, and order tracking throughout the process.
- Implemented using various technologies such as Angular, Spring (Java), Bootstrap and Hibernate

Weather Forecast Website
- Built a responsive interface with HTML, CSS, JavaScript, and Angular, ensuring seamless user experience.
- Retrieved real-time weather data using open-source APIs
- Developed weather forecasting, temperature, and humidity visualizations to improve user interaction.

ADDITIONAL EXPERIENCE

Electrical & Electronics Engineer | Redco Process Engineering, Istanbul, Turkey   Aug. 2021 - Feb. 2022
- Created installation drawings with AutoCAD and identified material requirements for sludge drying systems.
- Analyzed customer requests and ensured project alignment with expectations
- Conducted system tests, oversaw automation operations, and trained personnel on system functionality
- Managed on-site project needs and tracked project progress to ensure timely completion
- Inspected electrical installations and determined project requirements to align with engineering standards.

Electrical & Electronics Engineer Intern |ADM Electricity Distribution Company, Mugla, TR   Jul. 2019 - Aug. 2019
- Provided technical support in the maintenance and repair of the electrical distribution network.
- Created technical drawings (AutoCad) for electrical distribution projects and observed their implementation in the field.
- Gained experience in using Supervisory Control and Data Acquisition (SCADA) systems for remote monitoring and control.
- Supported the planning and implementation of new customer connections to the power grid.

Work & Travel Student | SJ Garcia's/Park Lane Motel, New York, NY, USA   May. 2018 - Sep. 2018
- Maintained the organization and cleanliness of the beach area, ensuring a pleasant and safe environment
- Assisted customers in understanding water sports responsibilities, providing guidance on equipment use and safety protocols, facilitated the signing of liability forms before allowing guests to participate in water sports
- Served as a cook, dishwasher, and busser, contributing to daily kitchen operations in a fast-paced restaurant
- Maintained cleanliness in the kitchen and dining areas, adhering to health and safety regulations
- Collaborated to ensure smooth service, especially during peak hours, improving overall customer satisfaction
